PERSONALISED EDUCATION
DIFFERENTIATED 
THE ROAD TO MORE

By using the possibilities of Learning Analytics in a smart way, teachers have

and using the same route. For some this is too fast,

In traditional education a class with students is on

work in their own way and at

Students choose their own route to the

Finished line. They can stop for additional support.

strong students can progress faster to

In personalised education students

teachers need to encourage them individually.

To make the process repeatable,

the measurement, collection, analysis

and reporting of information (data)

what will happen?

During the process in which students generate

This way, students can choose their own speed and in this way the find the right pace.

The possibilities of Learning Analytics are promising. It can play

the teacher is no longer needed, but rather that they can spend their
time on guidance, coaching and supporting learning itself.

The different types of analytics determine the degree of human input
